Josh Page

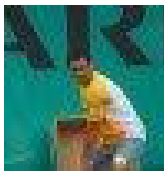

(Taught Josh between the ages of 10-13 years old)

Josh currently attends a University in San Diego, USA. As a junior player he progressed quickly winning the County closed championships to becoming National Champion Under 16 and then proceeded to play a number of International IFT Junior events which culminated in a highest Junior World Ranking of 123. Josh is currently acting as hitting partner for a number of ATP players, including Kyle Edmund and Borna Coric.

Jack MacFarlane (Taught Jack between the ages of 6-13 years old)

Jack won the County Closed Tournament and then progressed rapidly to become a top national player and reached the semi finals of the U16 Nationals Boys Single event. More recently he has played a number of ITF Junior events and reached World Ranking of 222. He now attends Georgia State College in the USA and is recognised as being one of the strongest members of their highly successful team. He was recently privileged to be selected to act as training/hitting partner for a session with Donald Young who arrived at the University for a practice session. A great experience to play with an ATP world class player.

Richard Brooks (Taught Richard between the ages of 10-12 years old)

Richard played to a high standard playing both ITF tournaments as a junior and turning pro at 18 and playing a number of ATP events reaching a career high of 1036 on the ATP Rankings. Richard moved permanently to Spain and more recently switched to playing Paddle Tennis when his tennis career ended to which he plays to a international standard and is an Ambassador for Paddle Tennis globally.

Filip Ambrozy (Taught Filip between the ages of 10-13 years old)

Filip learnt his tennis with me and achieved a high level as a junior, starting to play a number of junior tennis events nationally before moving to Spain with his parents to commence an intensive training and coaching tennis programme. He now plays a number of ITF events to expand his match experience and improve his ranking.

Lewis King (Current player)

Lewis joined me in September 2015, having moved from the Batchwood Academy in St Albans, is now performing to a whole new level. In his first season at 14 and under, he has won 13 out of 16 matches since Christmas, reaching two quarter finals in grade 3 (played against number 1 seeds), and the final of grade 4.

Monty Thompson (Current player)

Monty has joined me since Christmas 2015 from Warwickshire where he travels down to train with me to improve his technical and tactical skills to take him to a national level. He has won a number of Grade 3 events recently and is playing a number of Grade 4 events over the rest of the Summer season. Monty is very hard working, dedicated and focused to achieve the very highest level he can reach.

Monika Todorova (Current player)

Monika is also one of my long-standing pupils - I have taught her since the age of 5. Monika is now in the Top 10 in Middlesex for her age group (which often correlates to being one of the top players nationally, because Middlesex is such a large County, and has so many players and facilities.) She continues to perform really well and has had such fantastic results over the last few months.
